Indiana Course Access Portal Report

Reporting Requirements

In accordance with IC 20-30-16-12, the Indiana Department of Education is submitting the following report to the interim study committee on education with the following information about the course access program (called the Indiana Course Access Portal or ICAP):

- The number of authorized course providers;
- The number of approved course access program courses and the number of students enrolled in each course;
- The number of approved course access program courses available by subject matter;
- The number of students participating for the first time in approved course access program courses;
- The number of approved course access program courses each participating student is taking;
- Student outcome data, including: (A) course access program course completion data; (B) student growth, performance, and growth to proficiency; and (C) student performance on state or nationally accepted assessments; by subject area for each course provider. (There is no growth or assessment data for the iCAP courses.)

The Indiana Course Access Portal (iCAP) serves as a catalog of courses that provides options to help schools meet students' individual needs, expand learning opportunities, and diversify their curricula.

The Indiana Department of Education (IDOE) approved a pilot offering of courses in areas of high interest or need for student participation in 2018. Indiana Code 20-30-16 requires that course providers be authorized by the IDOE.

Introduction

The Indiana Course Access Portal provides students in Indiana with options for taking online courses from a collection of course offerings maintained by the Indiana Department of Education in partnership with authorized course providers. Indiana school corporations can use these virtual opportunities for a variety of reasons such as:

- Rounding out student schedules with desired courses;

- Addressing last minute staffing challenges that may otherwise limit the range of courses a school can offer; or
- Expanding the range of courses offered.

Schools and ICAP course providers are encouraged to work together for the success of enrolled students since each has a critical role to play in the successful completion of courses by students. During the 2018-19 school year, there were 57 students enrolled across fourteen courses offered by two providers. These students came from 9 Indiana school districts:

- **Adams Central Community Schools** *(1 enrollment)*
- **Beech Grove City Schools** *(4 enrollments)*
- **East Allen County Schools** *(13 enrollments)*
- **Eastern Hancock County Community School Corporation** *(11 enrollments)*
- **Jennings County School Corporation** *(2 enrollments)*
- **Portage Township Schools** *(20 enrollments)*
- **Randolph Central School Corporation** *(1 enrollment)*
- **Union School Corporation** *(3 enrollments)*
- **Wa-Nee Community Schools** *(2 enrollments)*

Authorized Course Providers in ICAP

There are currently seven authorized providers of courses listed in the ICAP catalog. These providers are listed below along with the number of courses they offer (Table 1). The average cost per high school course (1 credit) is $283. The average cost per dual credit course is $651.44.

Number of Approved Courses in ICAP and Enrollment

There are 132 approved courses currently displaying in the ICAP course catalog. A list of all the courses is available in Appendix A. There were fourteen courses with one or more enrollments during the 2018-19 school year for a total of 57 enrollments. None of the participating students took iCAP courses in the 2017-18 school year. Nine students took an iCAP course both first and second semesters. Of the 57 enrollments, 47 of those courses were completed with an average grade of 96%. These courses and their enrollments are listed below (Table 2).
